**TECHNICAL DATA SHEET
MIL-P-15930C COMP.G VINYL
ZINC CHROMATE PRIMER**

PRODUCT DESCRIPTION:

A primer coating, vinyl-zinc chromate for use with conventional or hot spray equipment over DOD-P-15328D metal pretreatment wash primer.

TYPICAL PROPERTIES:

- (1). **COLOR**..... #34096 Green
- (2). **SHELF LIFE**..... 1 Year From Date of Mfg
- (3). **DRYING TIME:**
 - Set-to-Touch: Within 15 Minutes
 - Dry Hard: Within 30 Minutes
- (4). **SOLIDS BY WEIGHT**..... 34 - 37%
- (5). **GRIND**..... 5 Minimum
- (6). **WEIGHT/GALLON**..... 8.2 - 8.7 Lbs

APPLICATION AND REDUCTION:

Surface to be coated must be clean and free of any foreign matter. Pre-treat with DOD-P-15328D by spraying a 0.5 dry mil film coat. Allow to dry for one hour and then coat with a 0.9 - 1.1 dry mil film of MIL-P-15930C. Thin with MIL-T-81772B Type III as needed for proper atomization.
